Team ID	6aba07eeb2817f097462be97
Project Name	FitBuddy – AI Fitness Plan Generator using Gemini Models
Minimum Marks	

Proposed Solution:

S.No.	Parameter	Description
1.	 Problem Statement (Problem to be solved)	Users often struggle to create personalized workout plans that match their fitness goals, fitness level, preferences, and available time.
2.	 Idea / Solution Description	FitBuddy is an AI-powered fitness plan generator that uses Gemini models to understand user requirements and generate personalized workout plans, exercise recommendations, and schedules.
3.	 Novelty / Uniqueness	FitBuddy uses Gemini AI to provide dynamic and personalized fitness plans instead of offering the same generic workout routine to every user.
4.	 Social Impact / Customer Satisfaction	FitBuddy can make fitness planning more accessible and easier to follow, helping users stay organized and consistent with their fitness routines.
5.	 Business Model (Revenue Model)	Freemium model with basic features available for free and premium features through subscriptions. Additional revenue can come from partnerships and affiliate programs.
6.	 Scalability of the Solution	The solution can be scaled to support more users, different fitness goals, multiple workout categories, additional AI features, and future mobile or web platforms.
